

section 5.1.2: metropolitan specialist palliative care services

South Australia's specialist palliative care services are funded by the Department of Health and managed by the area health services. In **metropolitan Adelaide** there are 5 main providers, namely the central/eastern, southern, northern, north-eastern and western services, each attached to a major hospital. These services provide inpatient and community outreach services and use a multi-disciplinary approach. Disciplines involved usually include medical, nursing, social work, bereavement and pastoral care services. Community based care is supported by the Royal District Nursing Service and Domiciliary Care Services.¹
